3. Mandates of the members of the Yerevan Council of Aldermen shall be distributed among the electoral lists of candidates of those political parties and alliances of political parties, which have received at least six percent of the “for” votes (in case of parties) and eight percent of the “for” votes (in case of alliances of political parties), respectively, of the sum of the total number of “for” votes and the inaccuracy amount.

If up to three political parties (or alliances of political parties) participate in the elections of the Yerevan Council of Aldermen, all the parties (alliances of political parties) shall participate in the distribution of mandates.

4. Mandates of members of the Yerevan Council of Aldermen shall be distributed among the electoral lists of political parties or alliances of political parties in proportion to the number of “for” votes cast in favor of each of them. The number of mandates available to each electoral list shall be calculated in the following manner: the number of “for” votes cast in favor of each electoral list shall be multiplied by the number of mandates available for the electoral lists; the product shall be divided by the total number of “for” votes cast in favor of the electoral lists participating in the distribution of mandates, then integers shall be distinguished, which shall be the number of mandates available to the electoral list of each political party or alliance of political parties.

Where, as a result of the distribution of mandates by the procedure prescribed by this Part, any of the political parties or alliances of political parties receives more than 40 percent of the seats, but not the absolute majority, then such political party or alliance of political parties shall be granted the absolute majority of the seats. Where two political parties or alliances of political parties receive more than 40 percent of the seats, but not the absolute majority, the political party or alliance of political parties that received the greatest number of mandates shall be granted the absolute majority of seats. The remaining mandates shall be distributed among the electoral lists of other political parties or alliances of political parties that acquired the right to participate in the distribution of mandates.

5. The remaining mandates shall be distributed among the electoral lists in the order of the magnitudes of the remainders, with the principle of one mandate to each. In case the remainders are equal, the contested mandate shall be given to the electoral list that has received the highest number of “for” votes, and in case of a tie, the matter shall be settled by drawing lots.

6. A candidate shall be elected from the electoral lists, if the sequence number of such candidate in the electoral list is smaller than or equal to the number of mandates to be given to such electoral list. The Central Electoral Commission shall compile a protocol on the candidates elected as members of the Yerevan Council of Aldermen.

7. If the number of candidates included in the electoral list of a political party or an alliance of political parties is less than the number of mandates available as a result of distribution of mandates, such mandates shall be distributed among the electoral lists of other political parties or alliances of political parties that have obtained the right to participate in the distribution of mandates, in the order of the magnitudes of the remainders, with the principle of one mandate to each.

8. The mandate of a member elected to the Yerevan Council of Aldermen, whose powers have terminated prematurely, shall be given to the next candidate in the electoral list of the respective political party or alliance of political parties by a protocol of the Central Electoral Commission, within a one-week period of notifying the Commission. If there is no other candidate in the electoral list, the mandate shall be distributed in accordance with the principle laid down by the second paragraph of Part 7 of this Article.

9. Where, in the course of voting, such violations of this Code have occurred that could have affected the election results, the Central Electoral Commission shall take a decision on conducting a revote in certain electoral precincts, if the consequences of such violations can be remedied in such way. If it is not possible to remedy such violations in such way, the elections of the Yerevan Council of Aldermen shall be declared as invalid, and a revote for the elections of the Yerevan Council of Aldermen shall be called.

10. Where, in the course of preparation of elections or in the course of conducting a revote in certain electoral precincts, such violations of this Code have occurred that could have affected the election results, the Central Electoral Commission shall take a decision on declaring as invalid the elections of the Yerevan Council of Aldermen, and shall call a revote for the elections of the Yerevan Council of Aldermen.

11. Where the Central Electoral Commission takes a decision on conducting a revote in certain electoral precincts, the revote shall be conducted on the seventh day following the adoption of such decision. In this case, the time limits prescribed by this Code for summarizing the results of the elections of the Yerevan Council of Aldermen shall be calculated from the revote day.

12. An application challenging the decision adopted based on the results of elections of the Yerevan Council of Aldermen may be lodged with the Administrative Court of the Republic of Armenia in the procedure and time period prescribed by the Administrative Procedure Code of the Republic of Armenia.

13. No earlier than 14 and no later than 21 days following the entry into force of the decision on declaring as invalid the elections of the Yerevan Council of Aldermen, a revote shall be conducted in accordance with the procedure prescribed by this Code, with the same participating political parties or alliances of political parties.

14. A revote shall be conducted once. In case the elections are declared as invalid after the revote, the Central Electoral Commission shall call a new election within a 21-

day period. The new election shall be conducted by a new nomination of candidates, and in the procedure and time period prescribed by this Code for early elections.

15. In case of early termination of powers of a member of the Yerevan Council of Aldermen, the mandate shall, within a one-week period of notifying the Commission thereof, be given to the next candidate in the electoral list of the respective political party or alliance of political parties, based upon a protocol of the Central Electoral Commission.

PART III

CHAPTER 38

ADDITIONAL, TRANSITIONAL, AND FINAL PROVISIONS

Article 166. The Preferential Voting Procedure

1. In a preferential voting procedure, the left side of the ballot shall indicate the surnames, first names, and patronymics of all the candidates, while the right side shall include check boxes for each candidate, which shall be marked by the voter. The order of the candidates' names shall be determined by drawing a lot. The ballot may be substituted by an electronic data file expressing the preference.

2. The voter shall place "1" in the box next to the candidate of his first preference. Integral successive numbers starting from "2" shall then respectively be placed in the boxes next to the other candidates in the order of preference. No number shall be placed in the boxes next to those candidates to whom the voter gives no preference. However, in any event, the voter must have expressed preference for at least as many candidates as there are vacancies. At a particular stage of summarizing the voting results, the ballot shall be deemed in favor of the continuing candidate who has received the highest number of preference votes in such ballot.

3. The following definitions shall apply for the purposes of this Article:

- (1) **"A continuing candidate"**: a candidate who is neither excluded from the counting nor declared as elected at a certain stage of summarizing the voting results;
- (2) **"Value of a ballot"**: the numerical value assigned to the ballot in accordance with the procedure prescribed by this Article at a certain stage of summarizing the voting results;
- (3) **"Total value of ballots"**: the total sum of values of all the ballots not excluded from the counting at a certain stage of summarizing the voting results;
- (4) **"Value of a candidate's votes"**: the total sum of the values of ballots, cast in favor of such candidate, which are not excluded from the counting;

(5) **“Passing quota”**: the minimum number of votes necessary to be deemed elected at a certain stage of summarizing the voting results;

(6) **“Value of a candidate’s surplus votes”**: the difference between the passing quota and the value of the votes of a candidate who is deemed elected at a certain stage of summarizing the voting results; and

(7) **“Gender equality standard”**: a quantitative standard ensuring gender equality between the elected candidates (for instance, the number of representatives of each sex among the elected candidates shall not exceed six).

4. The voting results shall be summarized electronically. To summarize the voting results, the following steps shall be successively taken until the summarization of the voting results is completed. All the arithmetical actions shall be performed with the accuracy of two digits after the decimal point.

Step 1. Invalid ballots shall be excluded from the counting. A ballot shall be deemed invalid if it contains no indication of preference assigned to candidates of a number that is at least equal to the number of vacant positions, or more than one candidate has obtained the same degree of preference. All the valid ballots shall be deemed not excluded from the counting, and the value of those ballots shall be 1.

Step 2. Ballots cast in favor of candidates not excluded from the counting shall be sorted as per candidates. All the candidates shall be deemed to be continuing candidates.

Step 3. If the election of a representative of either sex *a priori* violates the gender equality standard, then:

a. All the candidates of such sex shall be excluded from the counting; and

b. Their ballots shall be distributed in the following manner: the ballot with the same value shall be added to the ballots of the continuing candidates in whose favor the ballot is cast.

Step 4. If the number of all the elected candidates equals the number of vacancies, the summarization of the voting results shall end.

If the number of all the elected candidates is smaller than the number of vacancies, but the maintenance of the gender equality standard unequivocally determines the candidates that shall fill the vacancies, such candidates shall also be deemed to be elected, and the summarization of the voting results shall end.

Step 5. The value of the candidate’s votes shall be calculated for each continuing candidate. Based on these calculations, the total value of the ballots shall be calculated, which shall be the total sum of votes of the continuing candidates.

The passing quota shall be calculated in accordance with the following formula:

Passing quota = Total value of ballots / (number of vacant seats +1) + 0.01

Step 6. Where there is no continuing candidate whose total value of votes is higher than or equal to the passing quota, then the process of summarizing the voting results shall resume from Step 10.

Step 7. The continuing candidate, whose total value of votes is the highest, shall be deemed elected.

Step 8. For the elected candidate, the value of surplus votes shall be counted, which equals the difference of the value of the candidate's votes and the passing quota. A new value of the vote shall be assigned to each ballot cast in favor of such candidate. In order to count it, the value of the vote of the ballot shall be multiplied by the value of the candidate's surplus votes and divided by the value of the candidate's votes.

Step 9. All the ballots of an elected candidate shall be re-distributed in the following procedure: the ballot shall be added to the ballots of the candidate in favor of whom it is cast. If there is no such continuing candidate, the ballot shall be excluded from the counting and shall never be used during the following summarization steps. The summarization of the voting results shall proceed from Step 3.

Step 10. A continuing candidate with the lowest value of votes shall be excluded from the counting unless it *a priori* violates the gender equality standard. In case it violates the gender equality standard, the candidate that received the fewest votes, whose exclusion will not *a priori* violate the gender equality standard, shall be excluded from the counting. If it is impossible, due to a tie of votes, to determine the candidate who received the fewest votes, the candidate to be excluded shall be determined by drawing lots.

Ballots of the candidate excluded from the counting shall be distributed in the following procedure: a ballot shall, with the same value, be added to the ballots of the continuing candidate in favor of whom it is cast. The summarization of the voting results shall proceed from Step 3.
